# Understanding PowerSchool Parent Portal with Single Sign-On

*The Power of the application comes from understanding what it can do and how it can help you participate in your child's education.*

## Introduction

PowerSchools Parent Portal is a tool integrated into the PowerSchool Student Information System used by Hanover Community Schools and is specifically developed for parents and students. This new program provides a unique login code and password for students and their parents/guardian to login into the system for any student in grades K-12. This new Parent Single Sign-On feature offers a number of benefits, including:

- access to multiple students grades and attendance with one login
- a personalized account for each parent and guardian
- the ability for parents/guardians to retrieve their own login information
